

# PRODUCTION SUPERVISOR

We are looking for a Production Supervisor to support the continued growth of an established family-owned business in Leeds. Wilson Power Solutions are a leading manufacturer and supplier of electrical power distribution equipment and pioneers of ultra-low loss amorphous transformer technology. Our flagship product saves money, saves energy, cuts carbon and offers an innovative solution to the worldwide challenge of reducing energy wastage.

## The Role:

Reporting to the Head of Operations, you will be responsible for the allocation of work to the team ensuring production schedules, KPI's and OTIF are met.

## Responsibilities:

- The supervision and allocation of work to the teams of fitters, testers, fabricators, panel wirers and stock handlers.
- Hands on support with fitting and production duties as and when required
- Reporting and resolving production issues
- Checking works orders prior to commencement to ensure that all production environments are fulfilled
- Proof reading engineering drawings
- Checking the quality of work of others
- Completing and maintaining paperwork
- Maintaining accurate and up to date training records
- Providing support and guidance to team members
- Input and compliance with Continuous Improvement, Quality and Health and Safety

## Knowledge and Experience:

- Team Leader/Supervisory experience of working within a mechanical/electrical engineering environment is essential
- Experience of working in a fast paced manufacturing environment with changing priorities
- Experience of working with distribution transformers is preferred
- The ability to understand mechanical and schematic drawings
- Good numerical skills
- Experience in a LEAN Manufacturing Environment / Good understanding of LEAN Principles
- Good leadership competencies with the ability to engage and motivate others
- Have the ability to demonstrate a systematic approach to problem solving
- Be able to communicate efficiently both written and verbal at all levels and ensure communications are clear and understood
- Apprenticed and/or Mechanical or electrical qualification preferred
- Experience of working collaboratively with other operations personnel
- Ideally experience of working within a continuous improvement environment
- Strong attention to detail
- Flexible approach

## Salary and benefits:

- Salary negotiable
- Profit related bonus scheme (paid qtrly)
- 25 days holiday per year plus 8 bank holidays
- Two paid breaks
- Nine-day fortnight (37.5 hrs), every other Friday off
- 3 x salary death in service
- Employee Assistance Programme
- Cash plan towards day to day healthcare and wellbeing
- 4 weeks full pay paternity/maternity leave
- Pension
- Parking on site
- EV Scheme
